

## WEB APPLICATION

TEAM ID	PNT2022TMID11049
PROJECT NAME	Smart Waste Management System for Metropolitan Cities

The screenshot displays the IBM Watson IoT Platform user interface. At the top, there's a dark navigation bar with the platform name, user information (811519106100@smartinternz.com), and a help icon. Below this is a sidebar with various icons representing different system components. The main area has tabs for 'Browse', 'Action', 'Device Types', and 'Interfaces'. A blue 'Add Device' button is prominent in the top right. Under the 'Browse' tab, there are two buttons: 'All Devices' (active) and 'Diagnose'. A paragraph explains that the table below shows a summary of all added devices, which can be filtered or searched by API. Below the text is a search bar labeled 'Search by Device ID'. To the right of the search bar are controls for 'Device Simulator' (a toggle switch) and view filters (list and funnel icons). The central part of the screen features a table with columns: Device ID, Status, Device Type, Class ID, and Date Added. One device is listed with ID '1234567890s', status 'connected', type 'Pooja', class 'Device', and date 'Nov 18, 2022 11:47 AM'. At the bottom, pagination controls show 'Items per page 50' and '1 of 1 item'.
